

## Export Navigator Can Help Your Business Grow

The Export Navigator Program offers **free** expert guidance to businesses on exporting. Whether your business already exports at volume or you run a smaller enterprise that hasn't yet crossed borders, you will be put in touch with a helpful advisor who will demystify the export process. Although the current climate has disrupted the flow of goods and services, we can help you diversify your market and strengthen your business.

The program is available to all B.C. businesses located outside of Greater Vancouver and Greater Victoria and offers specialized advisors for businesses owned by Indigenous Peoples, youth (under 30 years of age), and women.
